VANCOUVER COLLEGE

There is an appointed time for everything,
and a time for every concern under the heavens.
A time to be born, and a time to die;
a time to plant, and a time to uproot the plant.
A time to kill, and a time to heal;
a time to tear down, and a time to build.
A time to weep, and a time to laugh;
a time to mourn, and a time to dance.
A time to scatter stones, and a time to gather them;
a time to embrace; and a time to be far from embraces.
A time to seek, and a time to lose;
a time to keep, and a time to cast away.
A time to tear, and a time to sew;
a time to be silent, and a time to speak.
A time to love, and a time to hate;
a time of war, and a time of peace.

Ecclesiastes 3

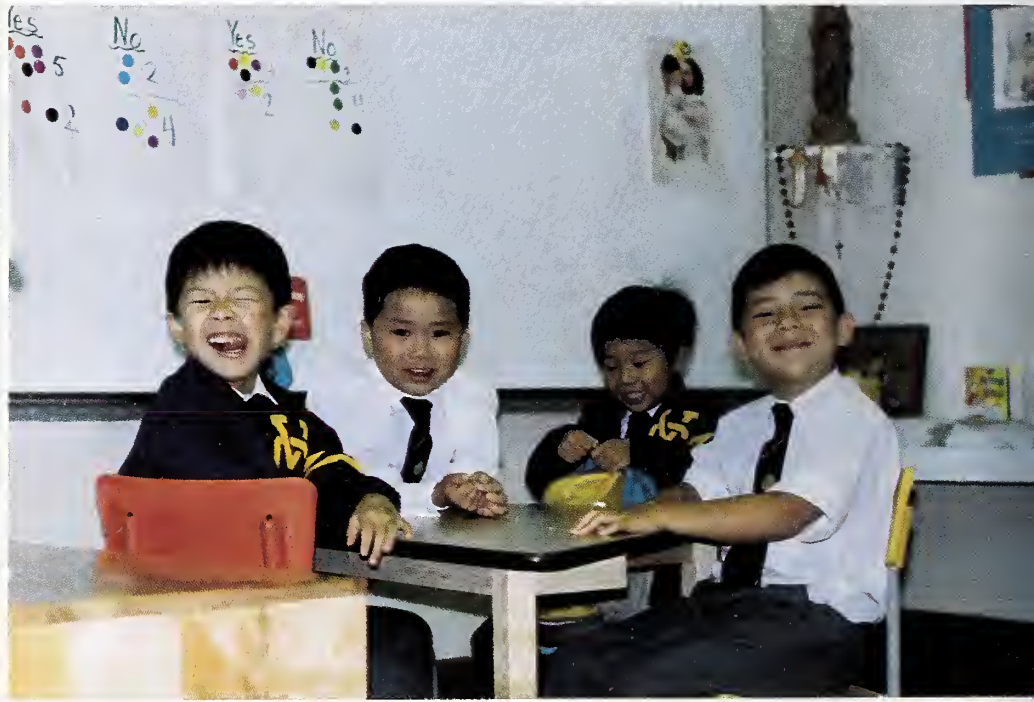

THERE IS A TIME

FOR EVERYTHING

A TIME

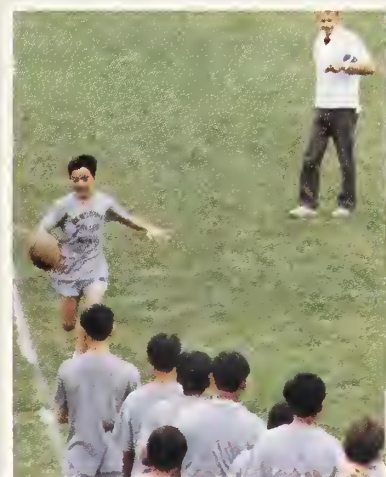

TO WORK

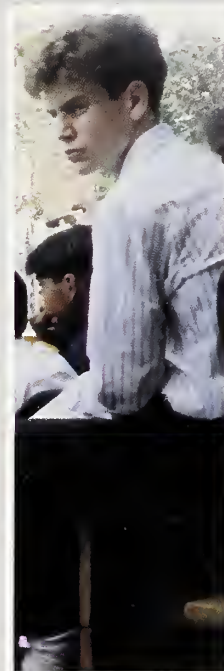

AND A TIME

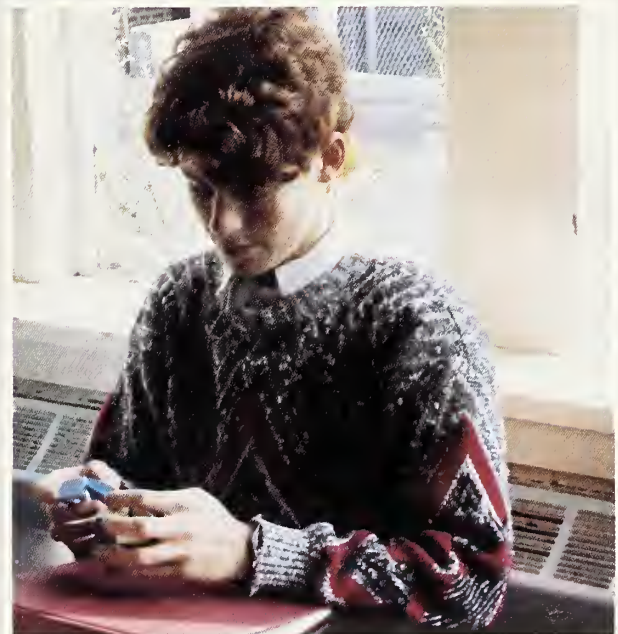

TO PLAY

A TIME

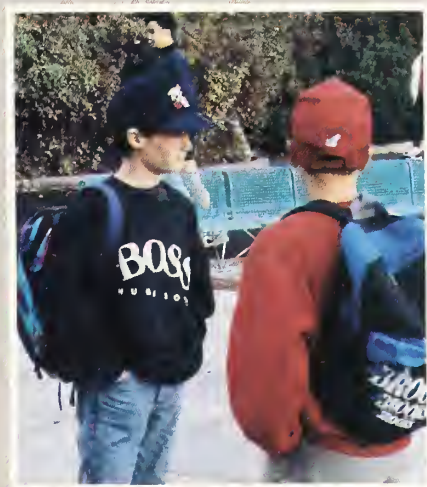

TO BE ALONE

AND A TIME

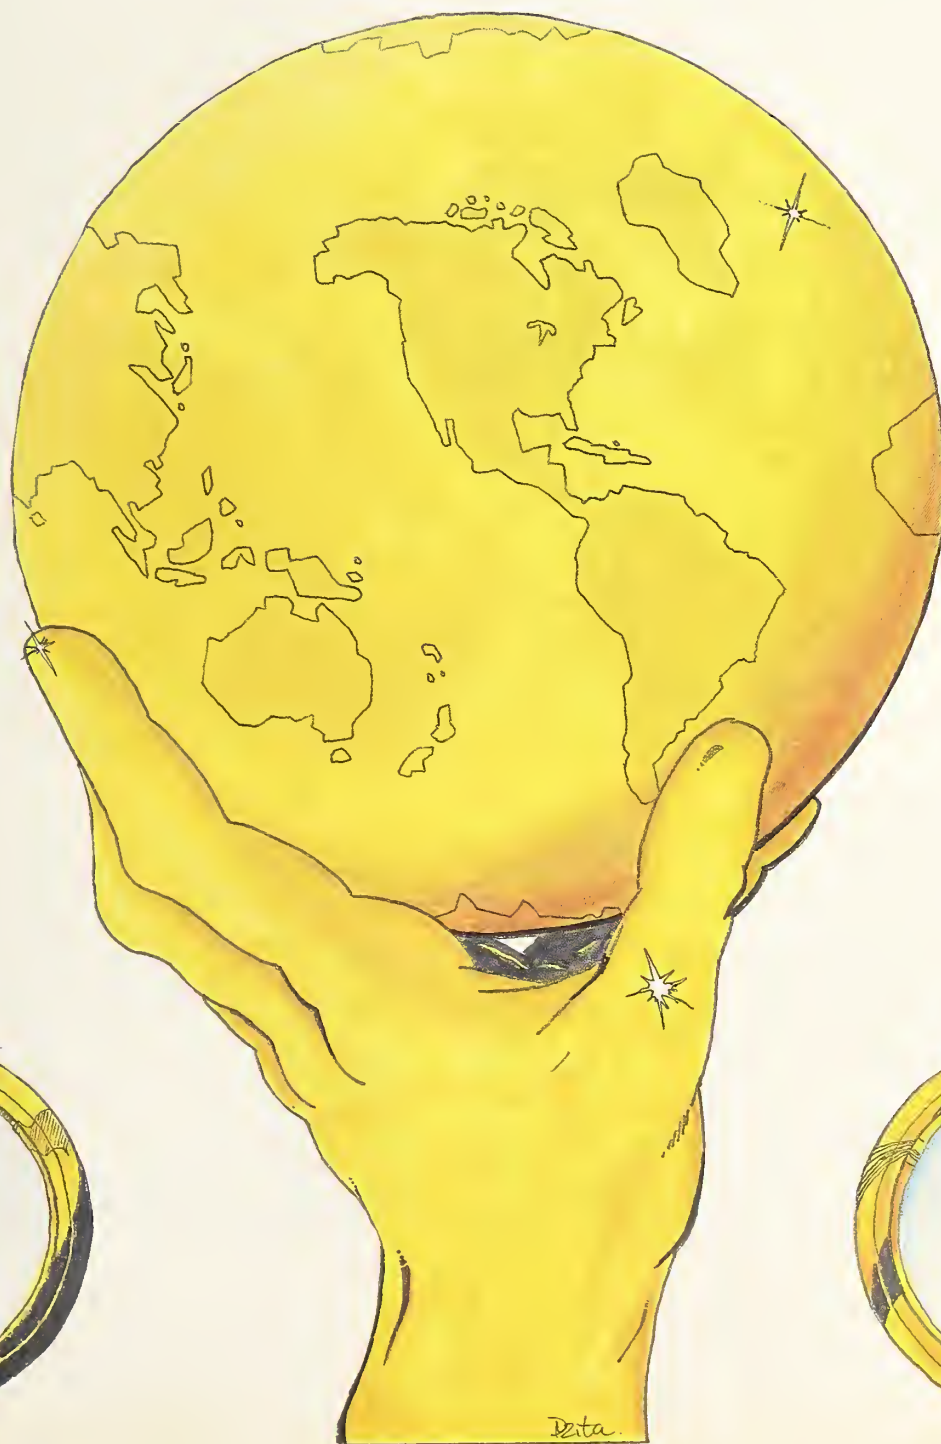

TO BE TOGETHER

Some final words to everyone out there: "HAVE A NICE LIFE!"

HO-YEN TSANG

Grad. This is the phase where grade 12's will part and walk separate ways. Ho-Yen guesses the people who will most likely be lifelong friends are schoolage friends. That's why we don't really "walk our separate ways." We still need to maintain our familiar identities in our own group. So no matter who you hang out with - friends with whom you like to drag race, have a brew, or even spend nights using your trusty PC - who you are now is who you will be for good. So have a great time - see you in limbo.

His worst Moment: when a binder ring caught his eyebrow.

MATTHEW VIT VAN WOLLEN

Hi! 1985 saw his debut in the new, all-male, "demanding" environment, a big change from the lackadaisical years at O.L.S. Looking over his shoulder now, as he coasts to the finish on the wave of his momentous accomplishments since, it seems ironic that his remarkable progress has its roots in that simple transition, when the propaganda forged him senseless to the gravity of new challenges. He thanks all those who decimated the pain; he wouldn't have veni, vidi, vici'd it without, as the Beatles sung, the help of T&MvW, ML, 2xPM, KT; and, of course, AK

DANIEL P. VARGAS

As Daniel looks to the future, he thinks of the past and how he's arrived at the present. V.C. has provided him with invaluable resources and unforgettable experiences. Throughout his 6 years, friends (BK's and Co.) have made school enjoyable, teachers have made it educational, and his family has given him unending support. He leaves V.C. looking forward to a new phase of life and hopes to find happiness in future endeavors. He thanks God, for without Him nothing is possible.

A cold morning in early September 1986 greeted groups of Grade Eight students as they gathered outside the Alumni Gymnasium. I stood alone, alienated from the others. I had my hands in my pockets and looked directly into the pavement. I was shaking and my stomach was tied in knots; I was nervous. A bell sounded and students began to crowd the gym entrance. I walked through the doorway and searched desperately for a seat but the bleachers were filled, so I quietly hid in a darkened corner where no one could hear or see me. The principal spoke for a few minutes, and introduced us to the Grade Twelve leaders.

The assembly was soon over, and we were dismissed to our homerooms. We were asked to follow our teachers, but I wandered off on my own. Soon I was lost and scared. I didn't want to approach anyone, for everyone looked threatening. I began to wish I had gone with my elementary school friends to another high school.

Just as my mind was made up to leave the campus and never show my face in the hallways of Vancouver College again, I felt a large hand grasp my left shoulder. I turned slowly and saw a rather large figure wearing a gold V sewn on his purple sweater. He looked down at me and asked me my name; I told him. He took my schedule out of my hand and told me to follow him to my homeroom. For the remainder of that year, that Grade Twelve leader said hello to me and made me feel welcomed.

Now in Grade Twelve, I am in the position to welcome this year's Grade Eights. The fright I see in their eyes reminds me of how I felt just five short years ago. As a Grade Twelve student, I understand the importance of the role I play as a leader in setting a good example. Whether I'm in school uniform or not doesn't matter; Vancouver College teaches its students to always be helpful.

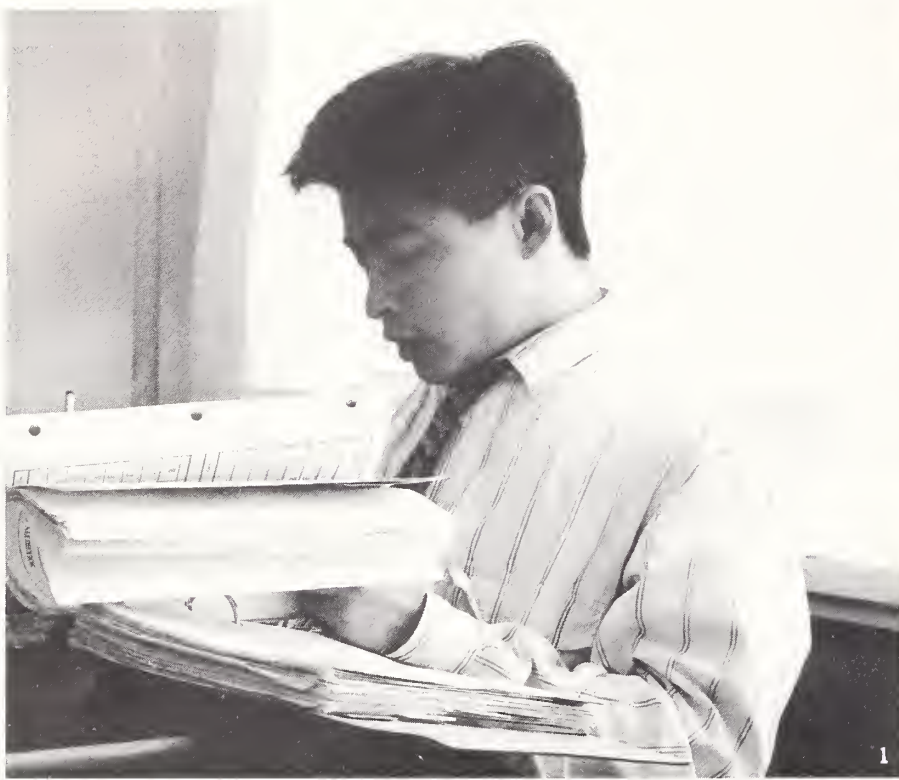

Looking at my peers, I see the changes that have taken place. We have learned to accept responsibilities, we no longer seek to avoid them. We are maturing, and teachers have realized that. They value our opinions and emphasize that we make our own decisions.

While we are becoming mature, independent adults, we are not yet there. We still recognize those wiser and more experienced than us, those who are still trying to help us. Just as we lead the Grade Eights, our parents and teachers lead us. They are guiding us through a difficult transitional period of our lives.

Grade Twelve has prepared us well for the future. What the future holds for us is now within our grasp. Let us seize the day.

A TIME FOR WAR

With the onslaught of a multi-international war in the Middle East, other earlier events such as that in Tienemen Square, and Canada's own Oka crisis seem minimal in comparison. The 1990-91 year has proven to be a time of war throughout the world. As Chinese tanks rolled against students asking for their freedom, the Canadian forces prepared themselves for a conflict with the Native People of their own country. After the temporary resolutions of these incidents for better or worse of those involved, the citizens of the world faced the possibility of the most destructive war ever known to mankind. Even a quick end to the war in the Gulf would result in thousands and thousands of deaths. It seems that the shroud of death has hung heavily over the world in a time when peace was apparently near.

A TIME FOR

PEACE

This year has also proven to be a time for peace. The physical destruction of the Berlin Wall has symbolized a need for unity throughout the world. The collapse of Communism as a political force

brings an end to the Cold War, and the noose of nuclear weaponry loosens on the people of the earth. Democratic elections in eastern Europe have shown that freedom is still a fervent desire. The world has shown that it can live peaceably if it will. It has also shown that a lot more of this will is required. Perhaps we can dream that man in the new world order will come to realize that military force is no longer an option, and we can bring about a lasting peace.

A TIME TO PRAISE

Brother Gerard, Brother Basil

Thirty-five years ago the first Brothers of Our Lady of Lourdes came to Vancouver College, beginning an association that has developed into a unique relationship between the two congregations of religious Brothers. This year, also we wish to honour one of those first Brothers of Our Lady of Lourdes to come to Vancouver College, Brother Gerard Van de Ven, who will be returning to the Netherlands this year.

The Brothers of Our Lady of Lourdes were founded in Belgium in 1830 by Father Stephen Glorieux to do a multitude of charitable works. Originally called the Brothers of Good Works, they were involved in teaching, hospital and social work, and child care ministry. The Brothers spread to the Netherlands and eventually had missions in Zaire, Indonesia, Brazil, Spain, the West Indies and Canada. Brothers from the Netherlands Province came to Canada in 1955 at the invitation of the Bishop of Calgary to work with Dutch immigrants and underprivileged young people. In order to improve their skills in the English language and to qualify as teachers, many of the Lourdes Brothers who came to Canada spent a year at Vancouver College, living in community with the Christian Brothers and helping in the school by teaching, working in the office, and supervising the students and residents.

The close relationship that developed over the years was cemented when several of the Brothers of Our Lady of Lourdes returned to College to become members of the Vancouver College faculty. The first was Brother Timothy who was part of the faculty for the 1967-68 school year. Then Brother Basil came in 1972, and Brother Gerard in 1974. While Brother Gerard retired from the classroom in 1983, he continued to look after the pop machines and the furnaces until 1990. Brother Basil retired from the classroom in 1989, but continues to be a very active member of the faculty as Director of the Bookroom and Lockers as well as being in charge of the grounds.

Over the years these Brothers have brought the added dimension of a rich European heritage and religious spirit to both Vancouver College and the Brother's community.

It is with great honour and gratitude that we hereby dedicate the 1991 Collegian to the Brothers of Our Lady of Lourdes on the occasion of the thirty-fifth anniversary of their first coming to V.C. and Brother Gerard's return to the Netherlands.

GRADE 11

We awake reluctantly from the depths of our bedcovers to face the challenges that the new day will bring. We travel somewhat less reluctantly, wakening now to our daily responsibilities as we arrive at our destination, arriving at this place where we will determine our futures. Emphatically, the rest of our lives are dependent upon what goes on here.

Vancouver College: This is a place of learning. It is a place where the ultimate goal is knowledge. To come away with knowing we have gained as much as we possibly could is the greatest feeling, the greatest

power any individual will feel. It is a power unlike any other.

In Grade Eleven, it is this power, this 'knowing' that we crave. Most of us go searching for this power without any real understanding of where the journey will take us, but we are determined, nevertheless, to continue.

To continue is to expand the knowing - to become more aware, more independent, more able to meet the world on its own terms rather than in the limited terms we have been aware of as children.

Grade Eleven will be one of the most critical years of our lives. There is a profound academic importance for Grade Eleven, for this is essentially first-year university in terms of the importance of the marks. Maybe just as importantly, however, is the social element: the momentary friendships we establish and the good times we share will be held in each of our minds as possibly the best moments and times we have known and felt. Between this year and the next, it is possible that we will never see some of the people we know ever again.

That is one of the reasons why this is the year that we must try to settle differences or old squabblings, because we may never have the chance to do it again.

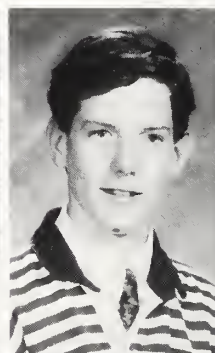

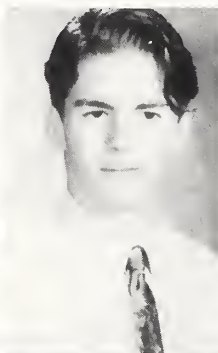

Grade Eleven will be a year of beginnings, endings, and remembrances; a year unlike any other yet experienced - of leaving kid's stuff behind and entering the hard times of adulthood. It isn't that it's the end of anything. It's that it is *really* the beginning; and the beginning of anything is the most important of times.

For me, it is a time both of sadness and of joy. Sadness, because I leave behind the times when I could be relatively carefree; joy, because I enter a time when what I do really matters; when I come into control of my life rather than leaving it in the hands of others. It means leaving behind being a boy; leaving behind depending on others. It also means coming into the territory of the adult - the freedoms, responsibilities, awarenesses, pleasures and pains.

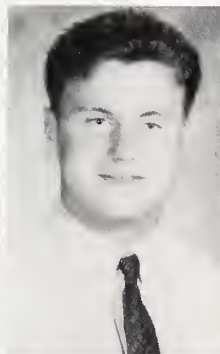

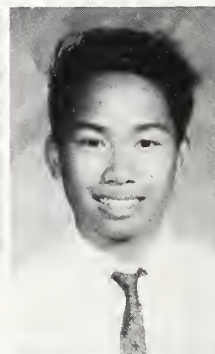

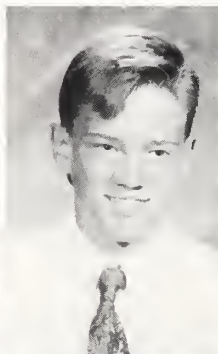

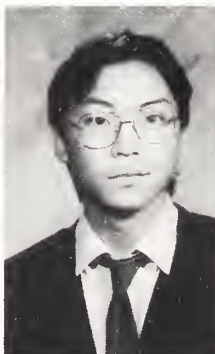

It is bittersweet.

GRADE 10

Warren Miller was once asked which age he would choose to remain for eternity. He answered "fifteen". I will spend this year at fifteen in Grade Ten at Vancouver College and I have an eternity of goals, fears, and dreams that will change me irrevocably.

Grade Ten is the year in which one learns one's limits and abilities. This is the time one must work hard to enter the race for higher learning. One must sacrifice pleasures that he previously had time for. This is the time for shedding childish ways and

shouldering responsibilities that are often cumbersome.

This year is one of the most memorable that we will live. We cannot afford to let it pass us by. Already we have formed some idea of who we are. Fortunately, the mold has not hardened enough to prevent change from occurring. Our limitations should strengthen our desire to improve ourselves.

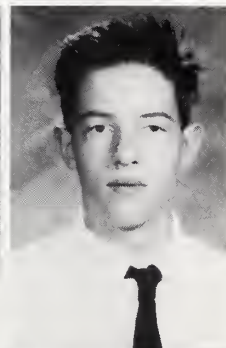

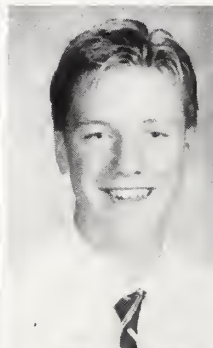

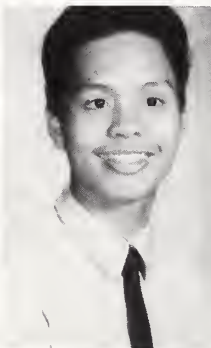

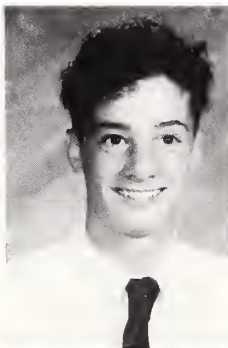

Athletics at Vancouver College is one way to make the most out of what we have. Through physical and mental challenges

on the court, track or field, we can make ourselves increasingly capable of handling life under pressure. Self-control and discipline will enable us to play and live meaningfully.

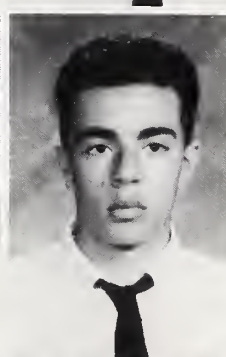

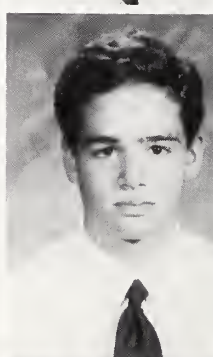

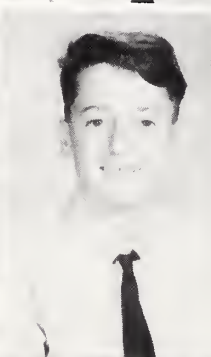

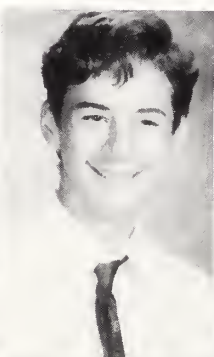

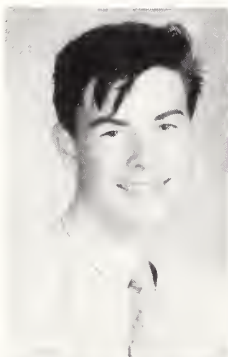

Grade Ten is a time which will be embedded in our minds and hearts forever. However, to remain at fifteen for an eternity would mean that one would never get to reap what he has sown. Grade Ten is one seed which we will later harvest.

GRADE 9

There are many different aspects to being a Grade Nine student at Vancouver College. There are many things available for the senior students of Middle School. Next year we all make a jump from Middle School to High School and it is just another step towards maturity. To be a Grade Nine student at Vancouver College is to have more responsibilities, leadership, and involvement within the school community. All three are qualities that are encouraging to see in growing young men.

As each student grows older each year, the responsibilities grow too. Each grade level has more homework. We have to remind ourselves to complete each assignment to the best of our abilities because our parents and teachers cannot always look over our shoulders. It is up to us to do it because we cannot put the responsibility onto someone else's shoulders. Whether we are at home or at school, we have to be responsible for our actions.

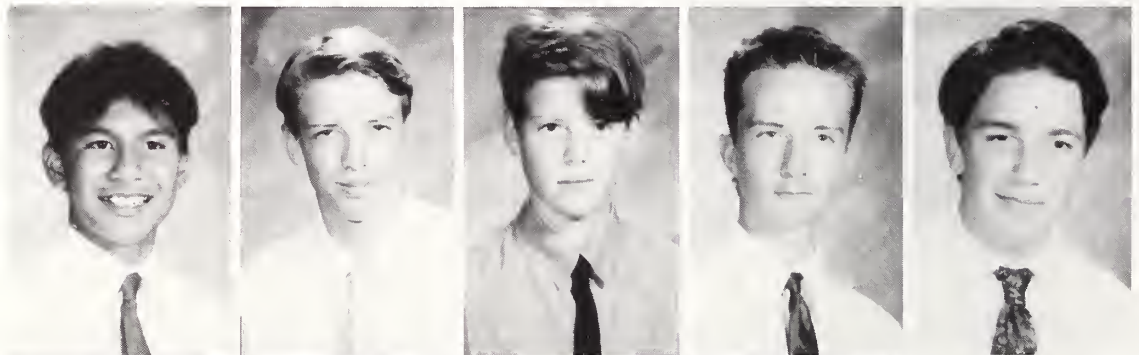

As each student grows he has to have leadership qualities. We are the leaders of the future. This year there is a new elective called Leadership. It is taught by our Middle School Assistant Principal, Mr. MacCormack. This elective is very good as it teaches Grade Nine students how to be leaders. Leadership is very important, and each one of us can lead by example. As we get older we should become more like leaders.

Finally, involvement within the Vancouver College community is crucial. If we only take what is offered between 8:30 a.m. and 3:00 p.m., then we do not get anything out of coming to Vancouver College. There are many different activities offered by the school before and after school. Vancouver College considers student involvement beyond the academics to be an important and desirable aspect of education. As Grade Nine students we have more to learn and be involved in outside of our classroom. As students of Vancouver College, we should definitely take advantage of what the school has to offer, and use it to grow, learn, and explore.

GRADE 8

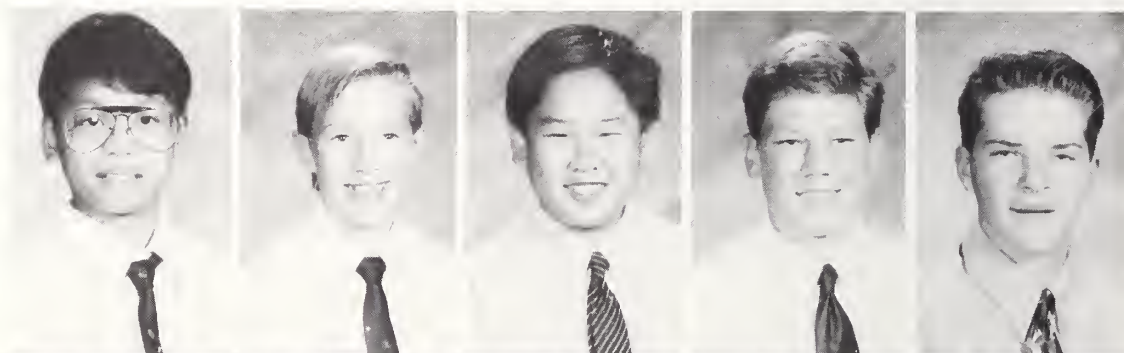

As a new student of Vancouver College, I feel that my 8th grade year has been very fulfilling. I was surprised on how quickly I was able to adapt to this school compared to my past elementary schools. It was also interesting going by a four-day schedule which was unusual for me, but it soon became quite easy and obvious to me why such a system is so effective. It sometimes gets a bit rough trying to get from one class to another within a five minute period, but ninety-nine percent of the students usually arrive on time. Our teachers are both fair and understanding. As for the cafeteria, I don't enjoy standing and waiting for five to even ten minutes, so I haven't had the chance to taste their food other than the fries. The assemblies have been very interesting from a boat christening to a somewhat unbelievable hypnotist. Every subject had its own unique presentation. The social studies films were both helpful and entertaining, while Math and Science we were

engulfed with lab reports, constant quizzes and tests and countless pages of homework. In religion we would usually spend the whole period talking about one topic and students would raise their hands just to keep the topic alive. As for French, learning was quite basic especially in the lab. During P.E. we would be exposed to a sport for a number of weeks and soon after change to another sport.

There really isn't much difference between an 8th grader's life at V.C. compared to an 11th grader's or even a 1st grader's for that matter. All that differs is the age and the student's accumulated knowledge, and maybe some other stuff.

GRADE 7

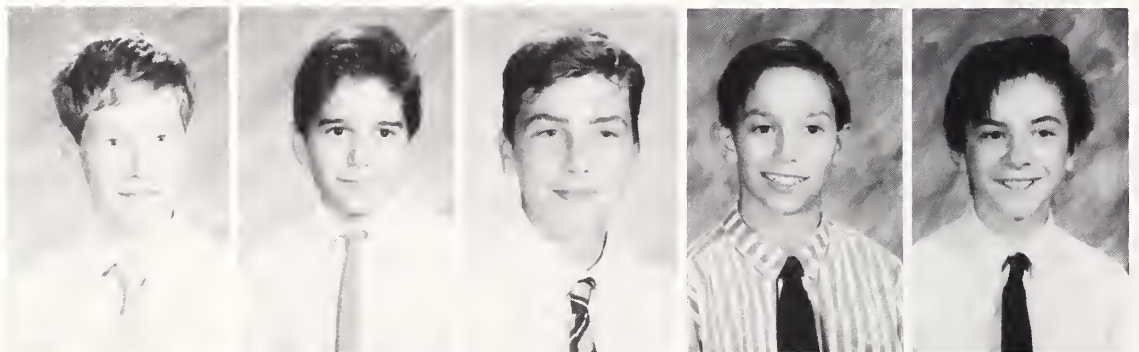

V.C.'s a school that's just for boys.
 V.C.'s gone high tech, we're out of those toys.
 V.C.'s got politeness; V.C.'s got manners.
 V.C.'s got posters and big V.C. banners.
 V.C.'s got Elementary and High School.
 V.C.'s got dress code; its our main rule.

In math you learn about division and plus;
 In socials you learn about people before us.
 In science you learn about odd and weird things;
 In band you learn how an instrument sings.
 In French you learn about des nouvelles;
 In religion you learn about heaven and hell.
 In phys. ed. you learn how to run Van Dusen;
 In English you write about the gruesome doosum.

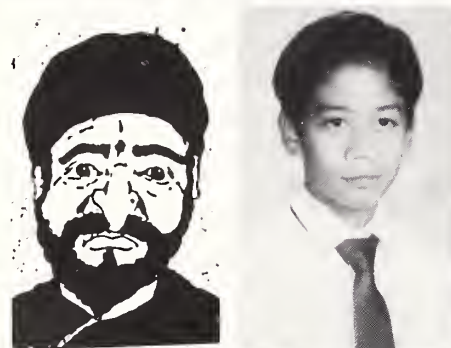

So come to V.C., you'll learn alot;
 We'll teach you to work and not sit there and rot.

Grade 6 is a pleasure at V.C. Some of us take care of the Kindergartens in the morning. There is a fish club that some of us join to take care of the fish in the aquarium. We are a very hard working class who try to be the leaders of the Elementary School. We also made a haunted house for the smaller kids too. For the past few years, Grade 6 has gone to lots of field trips like skiing, skating, and tennis. We've also had good organization by the president, vice-president, and secretary. Also, for the past few years, Mr. G. has been an excellent teacher for Grade 6. We hope that this class will have further success in the years to come.

GRADE 5

Grade 5 is a fun class, especially in gym. In math we have a group that can go on their own, and this group is called the Independent Group. Science is pretty cool; there's one thing we're waiting for - a trip to Miami (just joking). We're waiting for our trip to Evans Lake.

Sometimes when we have time, we're allowed to play "Two Minute Murder". In some periods we play Jeopardy. Mr. DesLauriers is our homeroom teacher. The other classes that we've been through have also been fun. This year we have three new wonderful students. Their names are Peter, David, and Jeremy.

On Halloween Grades 5 and 6 made a haunted house. We scared a few little people. We have a portable for our classroom. There are thirty-one students in our class including our famous teacher, Mr. DesLauriers.

Today in gym we played a game called dodgeball. In dodgeball we're having a

tournament. Groups one, two, three, four and five are having a tournament.

After a big test in math the next day, we plan to play Pentominos. In this game you have to put the pieces to match the shape on your paper. There is another fun game we play. Everybody has a book mark with a number on it. While we are reading, Mr. D. will call a number, and if you have the number, Mr. D. calls you go up and pick a card. One might say laps, chocolate bar, or helmet. Most of the people will cheer if you get laps. After lunch recess that's

when you would be able to read. And on weekends be prepared to do a lot of writing. And also in reading there is a group that is on a book called "Secret World of Og". The other group is reading the normal book that other people would read.

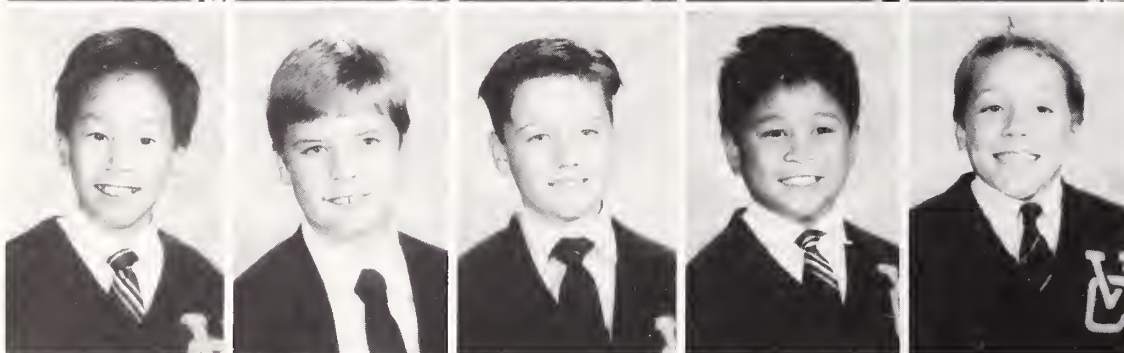

On the walkathon we raised lots of money. Jay Campos is our top fund-raiser in the class. He brought nine hundred something. Team Black won the movie for the most points. I think Grade 5 is the best class in the whole school.

GRADE 4

My class is cool. That does not mean that the class is not warm enough. It means that you can depend on them. If you lend them something, they give it back. If you forget your lunch, they will share theirs. They are also very independent. Take for instance the Walkathon. My class has won the party every year. If we want to win, we do it. Another goal is to win the missions this year. We have not done very well at the start, but we hope to have a good finish. Such is life in Grade 4.

KINDERGARTEN

Well, here we are! The first class of five year olds in the first year program at Vancouver College. In other words, V.C. now has a Kindergarten!

There are 26 of us: 13 in the morning and 13 in the afternoon. Next year we'll be together in Grade One.

We have lots of fun everyday and learn at the same time. Mrs. Gibbons, our teacher, has learned a lot too. We taught her the names of all the Ninja Turtles!

We begin the day at the carpet for prayer. Then, because we always have plenty to talk about, we have News, and Show and Tell. Next, we update the calendar, count, and sing. "Slippery Fish" is one of our favorite songs!

We are already learning to read and write. We keep a journal almost every day. Next is the best part of the day - Center Time! There are a whole bunch of centers from which we may choose: Mobilo, bricks, building blocks, pattern blocks, leggo,

puzzles, drawing, writing, unifix cubes, painting, train, Main Street, Dinosaurs, listening, sand and water table and library are among the many centers where we may play and learn.

be the first group of First Years. We especially look forward to being the first group of 13 Year Men in the year 2003. Grad '03 Rules!

PRINCIPAL'S MESSAGE

Much attention is being paid to the approach of the millennium - the year 2000. It will be a significant date in the history of civilization. It is already trendy to use it whenever and wherever possible.

The reality is that only the present exists. The future is a hoped for dream, and history a collections of memories. We live in the school year 1990-1991. We must focus on our lives today so that our futures are founded on sound preparation. We will then be able to look with pride on our past accomplishments.

You are students at this school during a time of significant change. The changes are geared so that Vancouver College can deliver the kind of educational services needed here and now. It is a source of great satisfaction that staff and students continue to face these changes and rise to the challenges in a manner that makes Vancouver College a great place to be educated.

For Vancouver College is more than a place to go to school. It is a great place to grow, to mature and to learn. Whether June of 1991 finds you graduating from Grade 12 or from Kindergarten, Vancouver College is a great place from which to start. It is made that by the efforts of students, staff and parents.

On behalf of the Christian Brothers, the Board of Directors, and the Administration of Vancouver College, I would like to thank you all for your contributions to the ongoing traditions of this school and wish you God's blessing on all your future endeavors.

The 1990 fighting Irish varsity football team, dominated by grade elevens and starting only three seniors, faced, perhaps the most competitive league opposition ever. The team performed admirably to earn a two wins and two losses record with the highlight coming in a thrilling physical and emotional win over the top ranked Richmond Colts. The young Irish team advanced to the quarter-finals where they lost a narrow decision to S.T.M. at B.C. Place. The fighting Irish showed tremendous work-ethic and dedication throughout the season and sent out a message to next year's opponents that the Irish would be back with a vengeance in 1991.

SENIOR VARSITY BASKETBALL - 4th IN B.C.

With only four seniors, this year's Varsity Basketball team looked young and promising for the future. Yet this season the team surpassed all expectations.

The four seniors, Marek Garek, Jon Sitter, Brian Pong, and Grant Boyle stepped forward and provided the leadership needed through their hard work and hard nosed attitude.

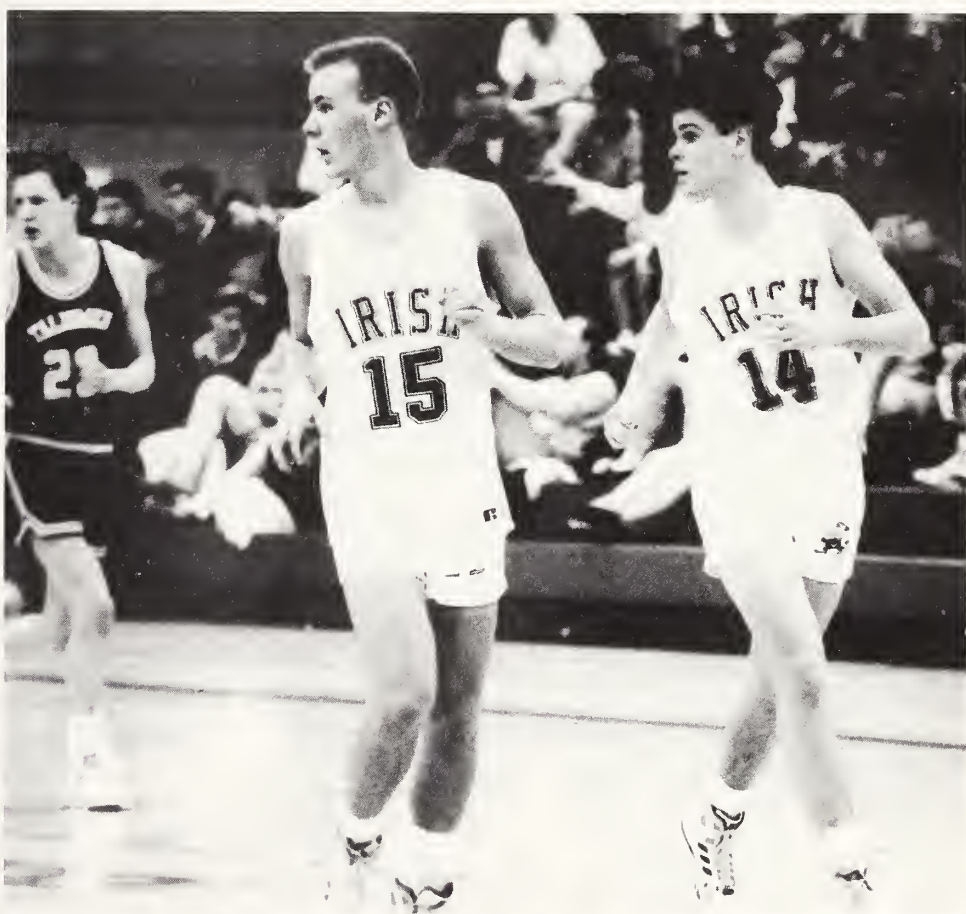

The season was highlighted by an enjoyable trip to Hawaii, an exciting Emerald Tournament Final, and the victories over Stevenston and Magee to finish third at the Lower Mainland Tournament and advance to the BC's at the Agrodome.

The team would like to thank the fans of all ages for their loyal support over the year.

MAKE IT TO THE PLAYOFFS

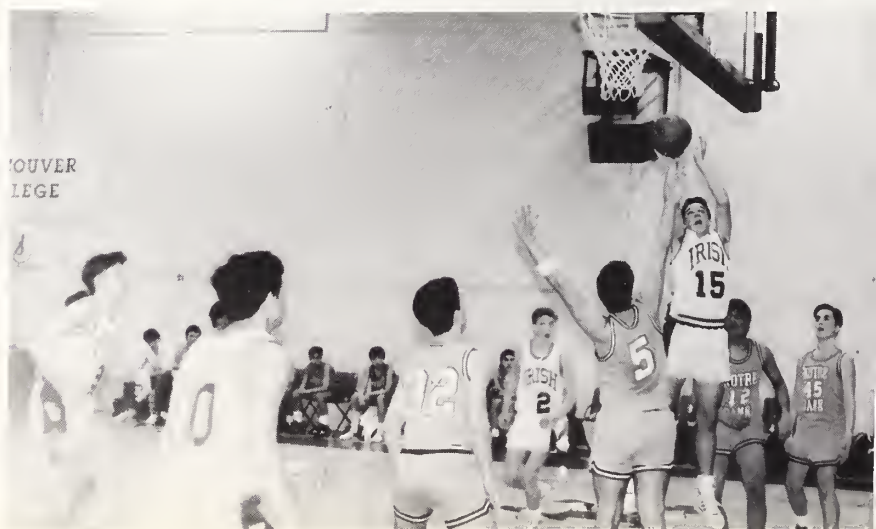

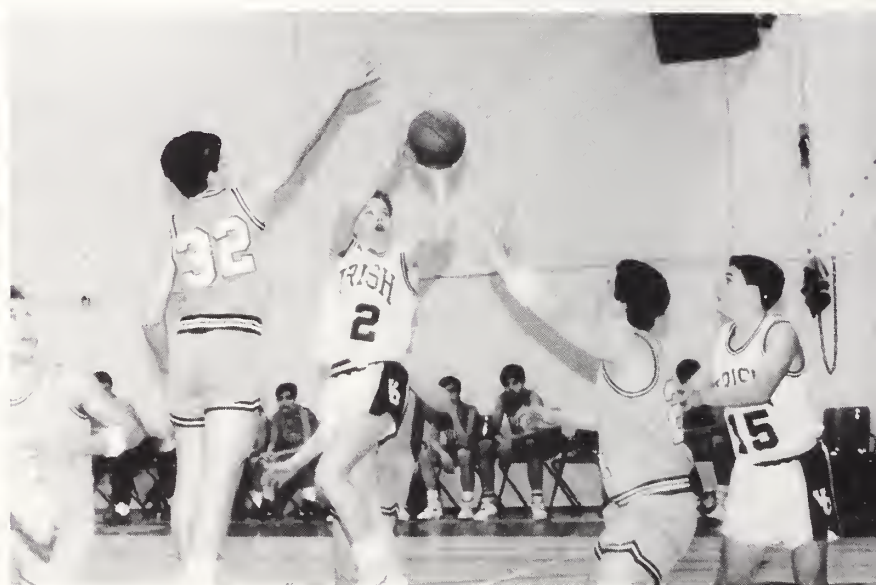

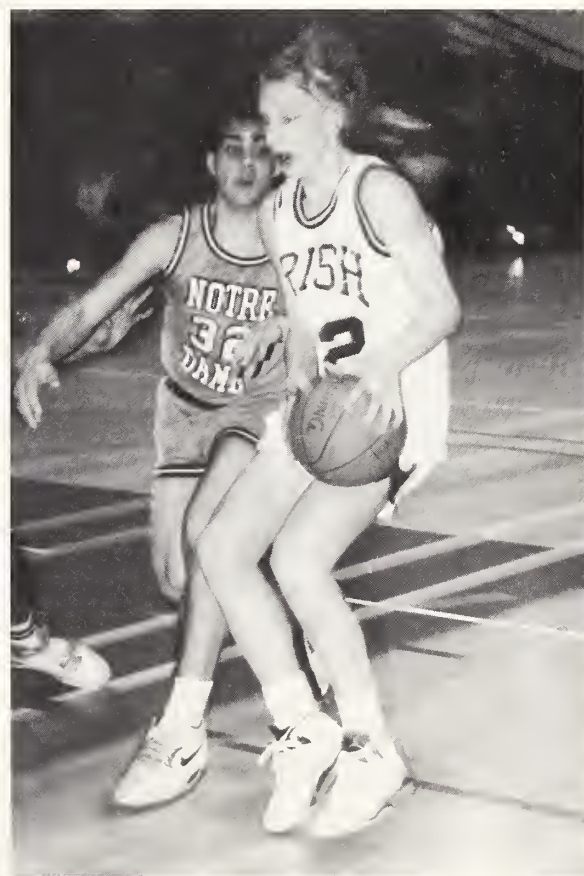

The 1991 season was extremely successful for the Junior Varsity Basketball Team. The squad was undefeated in league play, won two tournaments, placed second in two others, and qualified for the Provincial Tournament. A highlight of the season was claiming the Emerald Tournament Championship by defeating the then #1 ranked Arbutus Aztecs in the final game. The Junior Fighting Irish will graduate an excellent group of players who will contribute to an already strong returning Varsity Team. The JV's thank all the supporters and parents who helped make this such a fine, enjoyable season.

V.C. ROWERS

Rowing at Vancouver College was the result of an activity day outing on Coal Harbour in 1988. Since that small group of enthusiastic juniors and seniors attended Shawnigan Lake Regatta as observers in May of the same year, the programme has grown and flourished.

The 1988/89 season saw the novices take a provincial gold in the novice 8+ event and the motto of "IRISH PRIDE", as it refers specifically to rowing, was born. In 1989/90 the up and coming Colt Novice 8+ (under 16) took another provincial gold.

This year, in its third season, the programme is fully developmental, taking boys from Grade 8 through to grade 12. This year we will boat our first JV crew, what we refer to as the senior 8+. There is also a Junior 8+ of grade 9's and 10's, and a junior novice 8+ of Grade 8's, 9's, and 10's in their first, (novice) year of competition. Also looking forward to a great year of competition is a light-weight 4-, who are also competing in the JV 4x (quadruple sculls) events.

All told, 36 young men are on the water as many as 6 days a week from January to

June, fine tuning their skills, developing their levels of strength and endurance, and basically having a good time.

They all admit that the 9 or 10 weekends away at regattas are really "where it's at".

One of the high points of the season is always the annual SAINTS/COLLEGE BOAT RACE, now in its 3rd year. It's our annual "grudge match" against our rival crew at Saint George's and it always takes place in False Creek on the 3rd weekend in April. The record stands at one win each.

As this goes to print, the outcome of the race is still undecided.

The purchase this year of our first eight-man shell built to our specifications will definitely be a significant event for us all. The new shell was "christened" the IRISH PRIDE in an impressive ceremony on the plaza in September of this year. Father McLeod presided and some members of the inaugural crew were in attendance. One of them had the pleasure of pouring the champagne over the bow in celebration of a programme they had helped to build.

WRESTLING

The 1991 edition of the Vancouver College Wrestling Team continued its tradition of success. Led by the strong nucleus of seniors - Andrew Cochran, Scott Tse, Steven Baca and Mike Morel, the team proved itself one of the strongest in Vancouver. Strong finishes at the Tupper and V.C. meets showed that the Irish was a force to be reckoned with. The team also managed a respectable tenth in both the Junior and Senior divisions at the Port Alberni Invitational Tournament. Thanks to Head Coach Anderson, the assistant coaches, and all the wrestlers who devoted their time and effort to make this season a memorable one.

The 1990 swim season was a rebuilding year for the Irish Swim Team. Even with the loss of two top swimmers who graduated last year, the Irish managed to bring home five medals from the provincial championships. The team of Wade Bowley, Jason Pannu, Matt Gentleman and James Clark struck gold in the 400m free relay, while Jason Pannu also took the bronze in the 100m freestyle. Dan Joanis and Simon Gentleman also qualified for the provincial meet. The team extends sincere thanks to Brother MacKenzie and Laura Dee Bowley for their help.

THE HOUSES RETURN TO V.C.

For the past nine years, the large House scoreboard in the VC Cafeteria has remained neglected and forgotten. But slowly, new life is being brought back to an old Tradition.

Lannon, McCormack, Mackin and Nichol are important names in College history immortalized in mortar and bricks; they are the names of the four first wings of our school building.

Early in the year House Rosters were announced and every student and staff member was assigned to one of these four Houses. Elections were held in Middle & High School for grade-level "Czars", "Whips" and "Secretaries"

Each month points were announced for participation in the Honour Roll, Athletics, the Walkathon, Intramurals, Public Speaking etc.

Competition and cooperation throughout the Grades is the name of the game. Imagination alone is the limit for activities that can be included!

The first presentation of the House Trophy was made in January to MACKIN House which narrowly out-pointed LANNON.

The second presentation will be made in June to the House which accumulates the most points since January.

WELCOME BACK TO VC: LANNON, MACKIN, MCCORMACK and NICHOL!!!

Traditionally, the V.C. student body is led by a student council who together with the students create an unforgettable year. This year was no exception. Kicking off the year were a series of dances which easily lived up to their reputation as the best in the city. We organized pep rallies which inspired the Fighting Irish to many victories. Fan support included several fan buses to the USA where we saw our teams play to their full potential.

However, the year wasn't without controversy. Our elected president Gus Greer stepped down; yet, he generously continued to participate fully in the affairs of the student council, especially as the head of the Social Committee.

The year also saw improved relations with the various private schools in Vancouver, including LFA, York House, and Crofton House. To foster inter-school unity, we hosted city-wide student council meetings to exchange administrative ideas on how to improve our schools.

But the success achieved this year could not have been possible without the help of key individuals. Wayne Craig provided much needed leadership at dances and various athletic events; Riyaz Deshmukh's booming voice will always ring in our ears; Jon Sitter acted as the council's chief advisor; Steve Baca organized our first annual Mexican Hat Dance Fiesta; Alex Garcia and Justin McKenzie were always willing to lend a helping hand, and Mr. Jacobson, our moderator, constantly kept us on our toes. A sincere thanks to these individuals and to all who helped make it a great year.

On behalf of the student council I wish the grads of '91 a fond farewell. To all my other fellow students, I hope your years at V.C. are filled with the same joy that I have found at the home of the Fighting "I".

THE STUDENT SERVICE MINISTRY

To serve others in the light of the Gospel is the heart of VANCOUVER COLLEGE STUDENT SERVICE MINISTRY.

This year, the Religion 11 "D" block initiated the service ministry on campus by making sandwiches for the Sisters of Atonement every second Friday of the month. The sandwich brigade makes sandwiches during the day at school and delivers them to the Sisters of Atonement who distribute food everyday to the less fortunate of the city.

Last December, the students also collected toys and food which were distributed to some needy families of the city. More activities are on the drawing board and the hope is to formally set up leaders who will continue to spread the goal of VC Student Service Ministry.

The Vancouver College Parents' Association has endeavoured to increase its role from simply fundraising to one including help and guidance in academic and scholastic activities. There has been tremendous attention paid to the fact that globalization of families throughout major cities in the world have changed the complexion and competitiveness for survival within the school system.

We know that many parents believe that simply leaving their child at the doorstep of the school is called "getting an education". In today's academic world, and particularly at Vancouver College, that is no longer good enough. There is no tactful way to impress on parents how much impact their priorities have on their children, and how important it is to get involved at school. When academic and behavioral problems arise, teachers routinely re-arrange their professional lives to schedule special meetings at times convenient to parents. Not enough parents, they say, ever offer to do the same.

It is our responsibility to be involved and to participate.

As President of the Vancouver College Parents' Association, it is indeed an honour to acknowledge the energy and enthusiasm that the teachers have demonstrated to further communicate their skills, ambitions, visions and desires to help and to teach our most prized possessions - our sons - at Vancouver College. Without the support of all the parents, their efforts are greatly diminished.

It has been an exciting and most rewarding year. I extend to all parents the challenge to become involved with Vancouver's largest independent Catholic school.

Editors-in-chief

As I write this, memories of the past year scramble through my head. My duties began at the annual summer Yearbook Workshop at Shawnigan Lake, which was filled with great moments and lots of information. September rolled by and the yearbook's wheels were put in motion. At first it was fairly slow, having a rookie Collegian staff, but as the days passed, layouts were completed. Then came the dreaded deadlines, which created chaos and confusion. Layout rules were bent in order to meet deadlines. Devotion and cooperation were the factors that kept us ahead of the game.

The final days were smooth, but hectic. Time was working against us. Finally, the last deadline, the day we had anticipated, had come. We are proud and relieved to have completed what we had set out to do: *Collegian '91*. I hope you enjoy and treasure it.

Jason Silva

Finally, here is *Collegian '91*! We hope it meets your approval and your hopes. It's been a blast!

Moderator's Message:

With the fear and trepidation of typical rookies we embarked upon Collegian '91. We began the year with a new location and started at practically ground zero to rebuild a staff. For what has to be the longest season (September-March) for any team at the College, this novice crew worked diligently and painstakingly to piece together the final product you now hold. For us it was a rushing roller coaster ride. There were times of frustration - not being able to find a blade to crop pictures, missing a crucial photo, or having the furnace spring a leak; however, there were times of sheer ecstasy - making the deadlines, capturing the perfect action shot that was focused, getting a great response from sponsors, and realizing that we met the challenge. I sincerely thank the dedicated students and generous teachers who gave me much needed support and assistance for the full duration. Despite our initial fear and trepidation, we are proud to present the product of our many hours and best efforts. We are confident that Collegian '91 will join the tradition of excellence at the College.

COLLEGIAN STAFF AT WORK

Vancouver College is a school unlike any other, encompassing all aspects of life. It not only emphasizes academics and athletics, but also supports student development as a whole. This year spiritual growth was evident among V.C. students when they gathered to celebrate their Faith at the various masses. Thanksgiving, Christmas, Easter, Remembrance Day, Mother's Day and Graduation masses brought our community together to mark various significant events in the year. Vancouver College also promoted social developments through dances. The success of the Halloween, Christmas, Graduation dances, as well as the many social activities held throughout the year, enabled students to show that they could party hardy. Assemblies also promoted student development. One of the most memorable was the awe-inspiring hypnotist. Grade level assemblies offered discipline and direction for all concerned, and academic assemblies provided the scholastic achievers with deserved praise. At the conclusion of this school year, students will leave feeling a little more mature, and a lot more fulfilled.

OFFICIAL OPENING DAY

TEACHING TOMORROW'S LEADERS

During dedication ceremonies for the new wing on September 27, Brother Farrell told guests, parents, students and alumni, "In this magnificent building lies my answer to concerns about our future; my vision for Vancouver College set in concrete and steel. Solidifying an educational vision for the future" while "preseving past tradition" is the "vital mission" that will carry V.C. into the 21st century.

In many ways, the school's new student fa-

cility exemplifies the college's commitment to Christian education.

However, the addition's most important function, Brother underscored, will be to support the work of the dedicated teachers who "do an exemplary job of preparing young men for adult life in an increasingly complex world."

"While the hallmark of Vancouver College has always been academic excellence," Brother Farrell emphasized, "I like to think we can also take students who may not oth-

erwise go to university and bring them along to a point where they can. Our recent expansion of resources will allow us to accept every Catholic child who applies to the school."

"Christian leadership is badly needed in our community, in the world and all social interaction and we try to model that. We teach Christian ethics and values in a multicultural environment which reflects the society in which students live. Hopefully, they will carry these principles into university life and their professional careers."

A TIME TO WALK

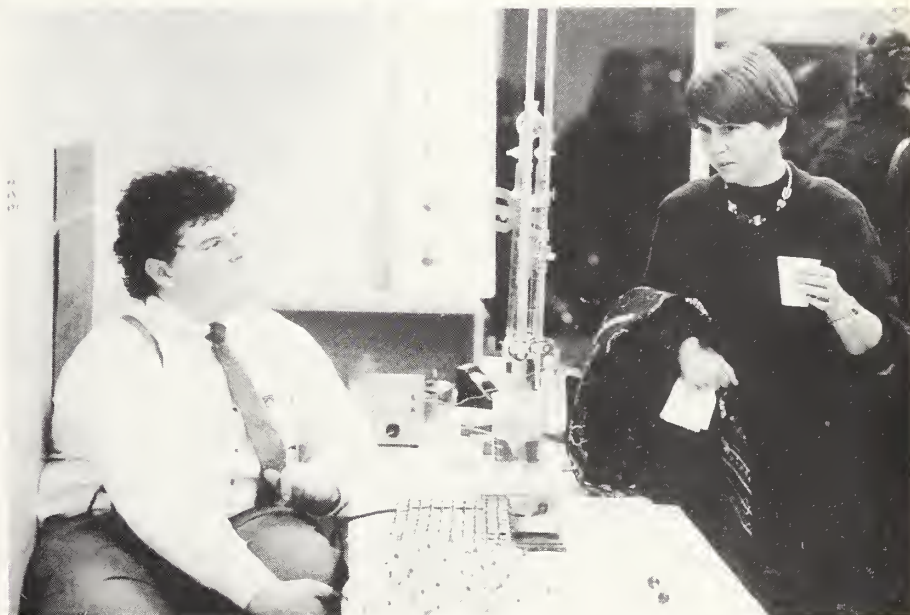

Walkathon 1990 was a huge success, setting a new record of \$53,000.00 raised by students and staff. The best effort in raising funds for this year's walkathon was shown

by Grades 4, 5, 6 in the Elementary School and Br. Colford's, Mr. Grant and Br. Duff's homerooms. The money raised this year was used to purchase new bleachers for

the gym, video equipment for the Elementary School, and to upgrade the Adventure playground.

A TIME TO SHOW

On the evening of Wednesday, February 6th, the staff of grades 7 to 12, assisted by the Parents' Association, hosted an open house. The orientation of the evening was the academic story of Vancouver College. The various displays and presentations by the students and teachers were well received.

The attendance at the evening was extra-ordinary. Well over 600 parents were on hand. In addition to present parents, many future parents were present with their sons to see what College has to offer them in the future.

A TIME TO MOURN

ARCHBISHOP JAMES F. CARNEY

September 16, 1990, Archbishop James F. Carney died of cancer at the age of seventy-five. A few months earlier he had submitted his letter of resignation as Archbishop of Vancouver to Pope John Paul II.

It was early in the September of 1929 that James Carney was first registered as a student of Vancouver College by the then principal, Brother P.B. Doyle. However, this promising student was not destined to enjoy the privilege of a V.C. graduation for he received a higher calling to serve his God as a priest. Jim Carney joined a number of similarly inclined in studying for the priesthood at St. Joseph's Seminary in California for a year.

In September 1931, Jim returned briefly to V.C. where he rejoined his former classmates, then in grade eleven. He remained at V.C. for four months while awaiting the completion of Vancouver's first seminary in Ladner. It was eleven years later in 1942 when Father Carney was ordained.

Father Jim spent the next nine years as an assistant at Holy Rosary Cathedral. After two and a half years in Aldergrove, he was sent

to Corpus Christi parish in 1953; he was appointed pastor the next year.

In 1964, Archbishop Johnson appointed Father Carney, Vicar General of the Archdiocese of Vancouver; two years later he was Auxiliary Bishop. In 1969, following Archbishop Johnson's early retirement, he was appointed Archbishop of Vancouver by Pope Paul VI.

His term as Archbishop could be summed up in his own words, "I stand with the Pope!" In his twenty one years as Archbishop he was always faithful even when he received criticism and even ridicule for his strong stands. He took great pride in the Catholic school system which grew to 14,000 students by 1990.

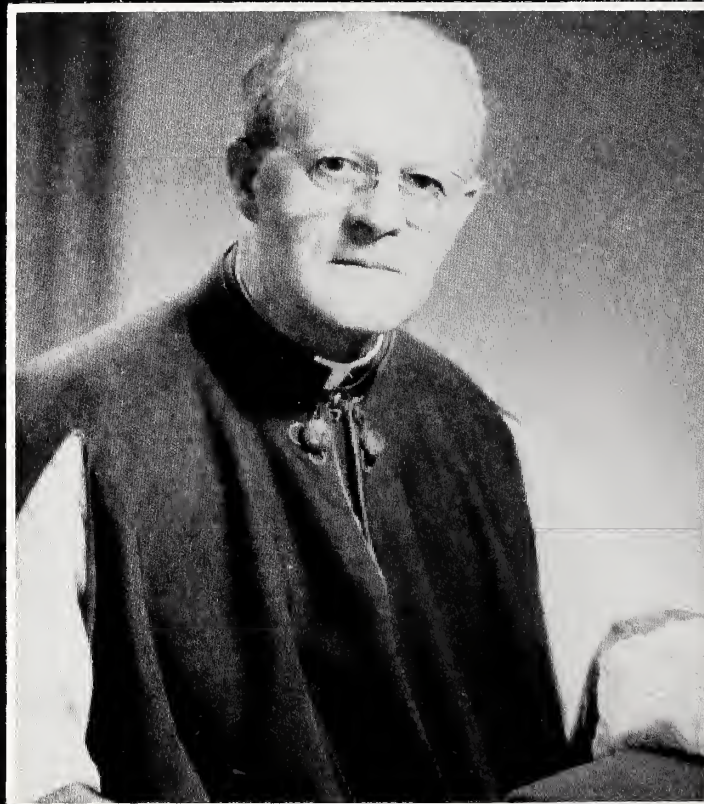

He was a native Vancouverite who dearly loved the people God entrusted to his care. Of Vancouver's six Archbishops, he was the only native son, and as such had a special place in the hearts of his people. He was a faithful shepherd, a servant of the community at large, and a spiritual father for the city of Vancouver. May he rest in peace.

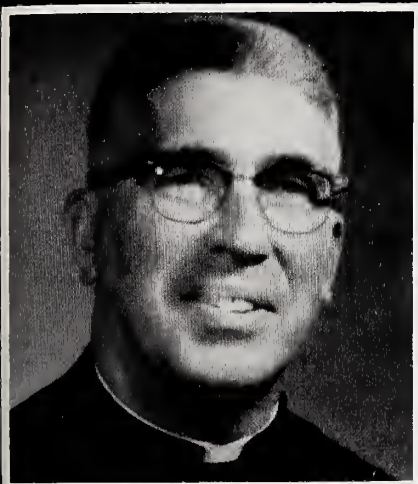

MSGR. T.M. NICHOL
D.P., V.G.

One of Vancouver College's greatest friends, Msgr. T.M. Nichol, entered the joy of our Lord on May 7, 1990. Born in St. John, New Brunswick, on Sept. 5, 1900, he later studied at St. Thomas College, and was ordained for the diocese of St. John on April 11, 1925. In 1929, Archbishop William M. Duke, another native of New Brunswick, invited him to join the Archdiocese of Vancouver. He served the Church in Vancouver in various capacities - Vicar General, rector of the Cathedral, and finally Pastor of Sts. Peter and Paul Parish. When Archbishop Duke assigned Msgr. Nichol to Sts. Peter and Paul, he mandated him to cement relations between the Archdiocese and the Christian Brothers at Vancouver College. This he did to an extraordinary degree.

For forty years he was the "ex-officio" chaplain for Vancouver College. Many alumni fondly remember his homilies at school masses and his visits to the classrooms for religion class. He always had a knack of using stories to get his point across. In 1962 on behalf of Sts. Peter and Paul Parish, he donated \$120,000 toward the building of the north wing, now called Nichol Hall after its principal benefactor. In 1981 when ill-health forced him to resign as pastor, the Brothers invited him to live with them in their newly completed residence. During his five years at the Brothers' residence, the daily Mass he celebrated at noon attracted about twenty people. However, in 1986 increasing infirmity forced Msgr. Nichol to move to the Youville Residence where he peacefully passed away May 7, 1990. It was fitting that his funeral was from Sts. Peter and Paul Church which he had served faithfully for forty years and near the Vancouver College he loved so well. May he rest in peace.

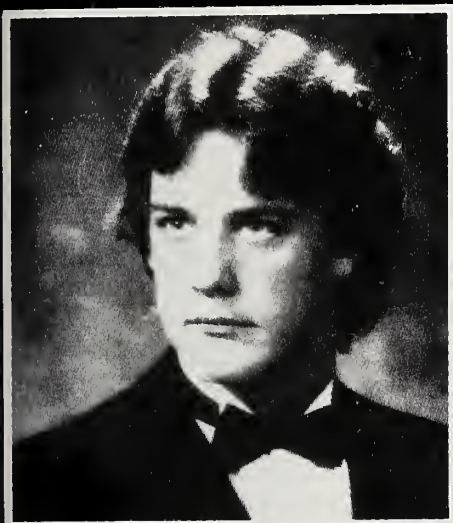

Brother WILLIAM GABRIEL NOONAN, 1914-1989

Brother William Gabriel Noonan was part of the Vancouver College scene for almost twenty-five years. During that time he endeared himself to his students as the "religious typing teacher"! He never missed an opportunity to instruct his typing students on religious topics and devotions before getting down to the finer points of typing. While he retired from teaching in 1983, he continued to reside at the Brothers' residence on campus until his death in 1989.

William Noonan was born in 1914 in Bay-de-Verde, Newfoundland. He became a teacher and taught for seventeen years in Merasheen, Bay-de-Verde, and Sweet Bay before entering the Congregation of Christian Brothers in 1948. As a Brother he taught in a number of schools in Newfoundland, Washington State, and Montreal before coming to Vancouver College in 1966.

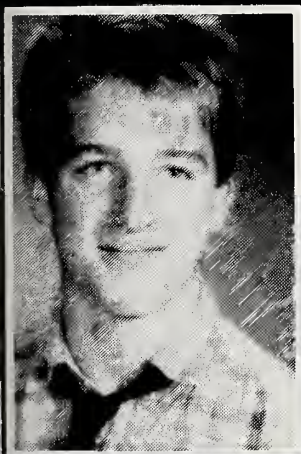

He died in Toronto on his way back to Vancouver after a holiday with his family in Newfoundland. He was buried in the Christian Brothers' plot, Belvedere Cemetery, St. John's, Newfoundland. May he rest in peace.

MICHAEL ROBERT GUTHRIE
1968-1990

Mike entered Vancouver College in 1976 in Grade 3. He graduated from Grade 12 in 1986. During Mike's years at College he was heavily involved in athletics. He received his Varsity Letter in both football and basketball and he and his family were some of the biggest fans of the "Fighting Irish". Mike was well known for his love of life and all that it had to offer.

Mike was tragically killed in an industrial accident on July 4, 1990. He will be sadly missed by his many friends and fellow graduates.

DAVID BRUSHINSKY

"A well-liked and easy-to-get-along-with guy" is a phrase often repeated when reflecting upon our friend David Brushinsky. During his stay at Vancouver College, David was considered a friend to all. His kindness and fun-loving spirit will always remain with the graduating class of 1991.

I still hear him laughing
so loudly on the bus.
In search of fun, he always was.
A towering grin, he often did bear;
A smile he always was willing to share
A friend to all, not just a few,
Welcoming all regardless of who.
Quick to joke, but to harm he was meek;
Conflict with others, he failed to seek.
Always friendly, his kindness never lacking
When I'm on the bus
I still hear him laughing.

THE PLASTICS PEOPLE

NOT A BAD APPLE IN THE BUNCH

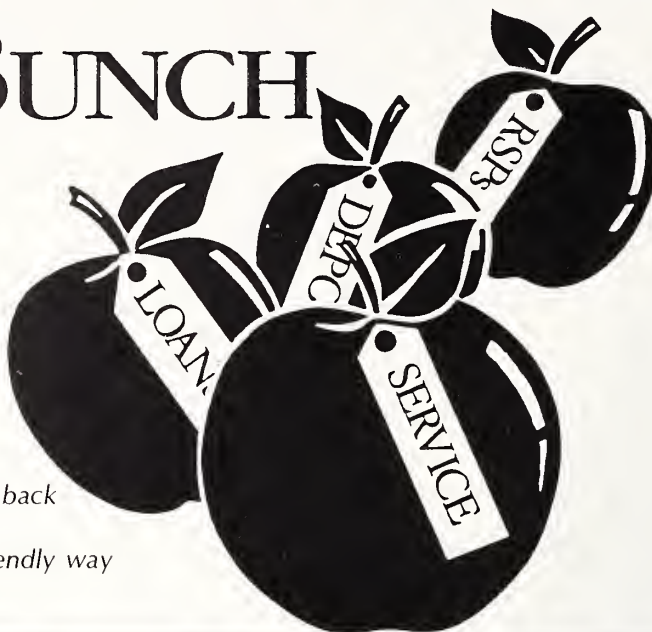

Maybe you've heard it at other financial institutions. Tellers can snarl and loan officers snicker.

But at TCU the air is one of gracious hospitality.

TCU members are so accustomed to our warm and genial staff, that they walk in the door already smiling.

We see it often, and it affects us deeply - gets us feeling appreciated and eager to please - which, in turn, reflects back on the people we serve.

At TCU, we take great pride in the friendly way we serve our members - and it shows.

PERSISTENCE

Nothing in the world
can take the place of persistence

Talent will not;
Nothing is more common
than unsuccessful people with talent.

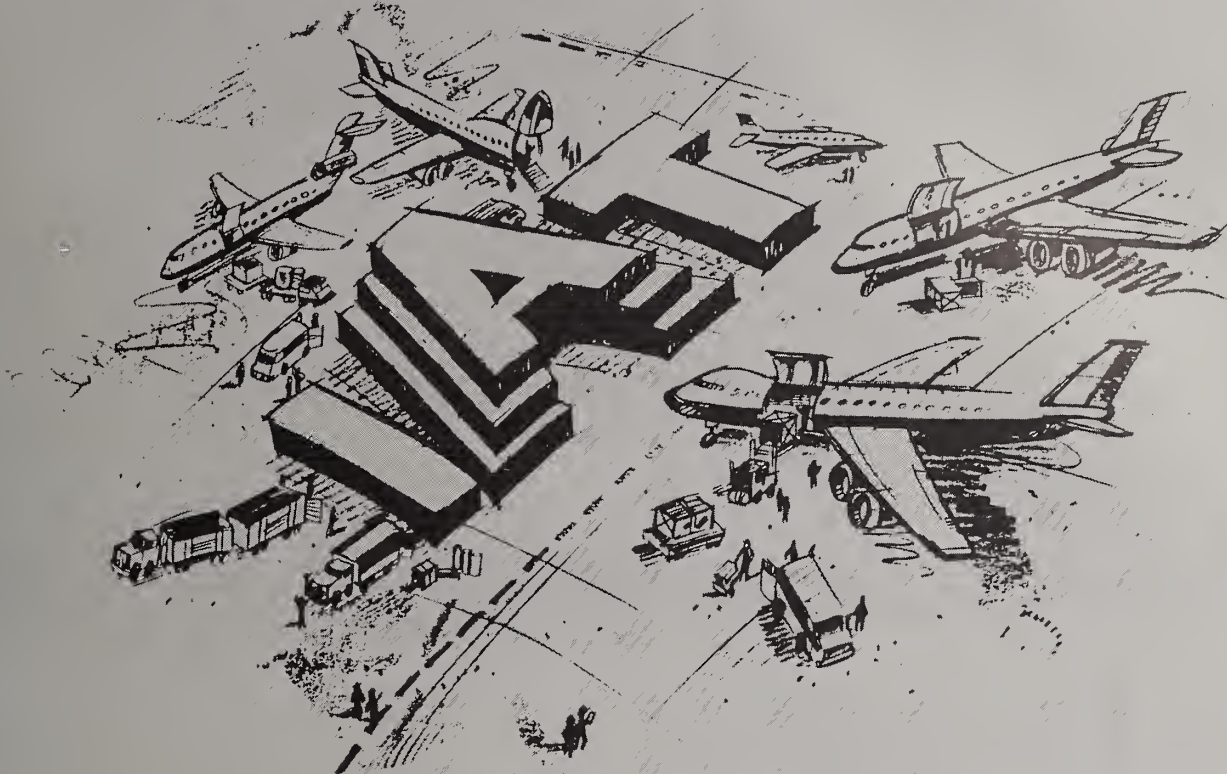

Genius will not;
Unrewarded genius is almost a proverb.

Education will not;
The world is full of educated derelicts.

Persistence and determination alone
are omnipotent.

WESTERN MANAGEMENT CONSULTANTS

We give air cargo room to move.

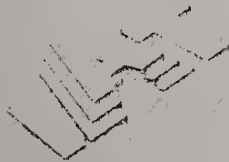

During the past 30 years, IAT has grown to be the largest developer, owner, operator of air cargo storage and distribution facilities in the West. Our business has been built on people, service and a quality product.

At the heart of IAT is a pro-active management team dedicated to their customers and committed to the future of the air cargo industry.

We consider quality service to be more than a storage facility. Flexibility and a willingness to adapt space, lease agreements and buildings to meet your needs is part of our value-added philosophy. With over one million square feet of quality facilities we are true members of the international aviation community.

When it comes to space, we truly believe the sky's the limit.

Adduce or cite, as in to attribute a statement perhaps regarding a price. A quotation of a regularly listed price. Also much used by gossips for statements extracted by them from interviewees – many of which are ill founded.

In our business a quote is not a matter of ill opinion, but a precise and accurate compilation of the costs involved in completing your print job to the highest standards. Skill, experience and a good measure of reality go into each estimate and quotation we provide.

Keep 'em honest.
